4530/02 Scheme as Proposed
Block Plan
Location Plan

DESIGN:

Use
The proposed ground floor extension provides an additional storage space for tables and chairs.

Layout
The layout matches the previous small hall store extension. Externally a level escape route has been provided from the Hall's fire exit doors. Also the external steps have been re-formed.

Amount
The proposed Hall extension is 16.2m².

Scale
The scale of the extension proposal has been designed to match the previous Hall Store extension. The ridgeline is parallel to the previous extension the whole section will match the previous extension. The existing floor level is maintained as the previous extension.

Appearance
The extension uses the same facing brickwork / roof tiles / fascias / rain water goods as the previous extension.

Landscaping
Not Applicable.

Access
No alteration to existing.

Inclusive Areas
Level access to the school building will remain available via the main entrance doors. The extension provides disabled fire escape from the Hall.

Northamptonshire

Friar’s School is approximately 40-50 years old and has had various extensions over the years.

To free up space within the existing Hall it is proposed to construct an additional Hall Store to store tables and chairs.

Full consultations have been sought with Northamptonshire County Council, Headteacher, staff and governors during the design process and all parties feel that the proposals achieve the schools current needs within their present financial restraints.

The extension proposals will have no impact on existing playground facilities or neighbouring residential properties.

The existing site/buildings are not listed or within a Conservation Area.

There will be additional children and parents using the facility as a result of the proposals.

There will no alteration to existing staffing levels.

There is no alteration to the Schools current travel plan.
