REASONS FOR APPROVAL

It is proposed to expand Abbey Primary to two form entry with an increase in pupil numbers from 270 to 420 in order to help accommodate the increasing number of primary-aged children in the area. A new stand-alone building is proposed that would include four classrooms, a group area, toilets, various storage rooms and a plant room. Additional external works are proposed and include an enlarged car park, widened vehicular access, new pedestrian access, on-site pupil drop off and new hard play area.

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
Whilst it is accepted that there will some impact upon residential amenity in terms of traffic, highway safety and amenity issues, these are not considered to be significantly adverse to justify refusal of the planning application and the creation of an additional 150 places is considered to be of significant benefit to the local community. There has been no objection from the Highway Authority in relation to the highway safety and traffic concerns and it is considered that the proposed new building would not have a significant adverse impact upon residential amenity in terms of traffic, highway safety and amenity issues which would justify refusal of the planning application. The issues which have been raised by the statutory consultees can be dealt with by the imposition of planning conditions. Therefore, it is considered that need for the development outweighs the negative impacts relating to amenity (traffic and noise) and highway safety through increased traffic, and the proposed development is acceptable having regard to the National Planning Policy Framework and to saved Policies E20 and E40 of the Northampton Borough Local Plan, and Policies C2 and S10 of the West Northamptonshire Joint Core Strategy (Pre-Submission, July 2012).

POSITIVE AND PROACTIVE MANNER STATEMENT

In determining this planning application, the County Planning Authority has worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application by liaising with consultees, respondents and the applicant/agent and discussing changes to the proposal where considered appropriate or necessary. This approach has been taken in accordance with the requirement in the NPPF, as set out in the Town and Country Planning (Development Management Procedure) (England) (Amendment No.2) Order 2012.
