REASONS FOR APPROVAL

It is proposed to expand Boothville Primary School to three form entry with an increase in pupil numbers from 420 to 630 in order to accommodate the increasing number of primary-aged children in the area. A new stand-alone building is proposed that would include four classrooms, toilets, staffroom, support spaces, a group area and a plant room. Additional external works are proposed and include a covered play area and extension of the car park.

Whilst it is accepted that there will be some impact upon residential amenity in terms of traffic, highway safety and amenity issues, these are not considered to be significantly adverse to justify refusal of the planning application and the creation of an additional 210 places at the school within an area where there is a high demand for primary school places which is considered to be of significant benefit to the local community. There has been no objection from the Highway Authority in relation to highway safety and traffic concerns and it is considered that the proposed new extension would not have a significant adverse impact upon residential amenity in terms of traffic, highway safety and amenity issues which would justify refusal of the planning application. The issues which have been raised by the statutory consultees can be dealt with by the imposition of planning conditions. The NPPF gives great weight to the need to create, expand or alter schools and therefore, it is considered that the need for the development outweighs the negative impacts relating to amenity (traffic and noise) and highway safety through increased traffic, and the proposed development is acceptable having regard to the National Planning Policy Framework (paragraphs 72 and 93 to 98) and to saved Policies E20, E39 and E40 of the Northampton Local Plan, and Policies C2 and S10 of the West Northamptonshire Joint Core Strategy (Pre-Submission, July 2012).

POSITIVE AND PROACTIVE MANNER STATEMENT

In determining this planning application, the County Planning Authority has worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application by liaising with consultees, respondents and the applicant/agent and discussing changes to the proposal where considered appropriate or necessary. This approach has been taken in accordance with the requirement in the NPPF, as set out in the Town and Country Planning (Development Management Procedure) (England) (Amendment No.2) Order 2012.
