Russian Military Mapping Legends

1:5,000 and 1:10,000 mapping

- Government and Administrative Buildings
- Military and Industrial Buildings
- Suburban Entrance
- Non-freeway Building
- Private building (not visible)
- Factory, mill, and foundry, with chimneys
- Power station, drawn to scale
- Radio station, drawn to scale
- Abandoned open-pit mine or quarry
- Oil deposit or well
- Oil seepage
- Tailings pit
- Fuel storage tanks
- Growing trees
- Deciduous forest
- Coniferous forest
- Mixed forest
- Water ground
- Scattered vegetation
- Cellular forest
- Water body
- Canal
- Drain
- Railroad

Published 1885
Source map scale - 1:10,560

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840’s. In 1854 the 1:2,500 scale was adopted for mapping urban areas; these maps were used to update the 1:10,560 maps. The published date given therefore is often some years later than the surveyed data. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas. In the late 1940’s, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overprinted with the National Grid. In 1970, the first 1:10,000 maps were produced using the Transverse Mercator Projection. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.

Historical Aerial Photography
Published 1947
Source map scale - 1:10,560

The Historical Aerial Photos were produced by the Ordnance Survey at a scale of 1:1,250 and 1:10,560 from Air Force photography. They were produced between 1944 and 1951 as an interim measure, pending preparation of conventional mapping, due to post war resource shortages. New security measures in the 1950's meant that every photograph was re- checked for potentially unsafe information with security sites replaced by fake fields or clouds. The original editions were withdrawn and only later made available after a period of fifty years although due to the accuracy of the editing, without viewing both revisions it is not easy to spot the edits. Where available Landmark have included both versions.
