

Sch189C Oakway Academy – Non-material Amendment Supporting Statement

The original amendment sought to amend the location of the proposed Kitchen pod approximately 10 metres further South to avoid existing tree root radius and enable a simpler access for deliveries. It's previous location was within a fenced-off area, within the pupil area. It's proposed location can be accessed without visitors entering this fenced off area.

The non-material amendment application has been updated by GSS Architecture as per Helen Marsden comments dated 09/12/15 to include this Supporting Statement and a Site Location Plan (S)001, alongside the previously approved Plan (SK)039 and the proposed Plan (SK)065A.
