Drainage and CCTV Survey

Regarding the CCTV survey, please refer to 22506 CCTV Report.

In other cases, structural defects within the system may prevent obstructions from being observed. However, if possible, obstructions may be identified by CCTV. This can include but is not limited to:

- Assumed combined water.
- Magnetic lifting apparatus.
- Internal manhole.
- Storage box. Assumed storage box.
- Victorian manhole.
- Small screw driver.
- Unable to CCTV survey.
