TEMPORARY CLASSROOM AT KINGSLEY PRIMARY SCHOOL,
WALLACE ROAD, NORTHAMPTON

Modernisation works will be carried out as part of the restructuring from a three to two tier system under the PFI.

We require the provision of a double classroom to accommodate pupils in the short term in order to carry out the refurbishment works to the existing building. There will be a series of decants from the existing building to the temporary classroom in order to facilitate this work.

The classroom is required for general teaching.

The classroom will be positioned to the south side of the existing school and will remain on site for approximately 7 months commencing in August 2007.
