Part I - Particulars of application

Date of Application
3 March 2015

Application No.
NCC Ref: 15/00014/MINVOC

DDC Ref: DA/2015/0161

Particulars and location of development
Variation of conditions 1 and 4 of 13/00109/MINNMA relating to planning permission 08/00037/MIN to allow for more efficient operation of extraction and restoration, including amendments to the heights of the perimeter bunds and extension to the recycling area at Harlestone Quarry, Harlestone Road, Lower Harlestone, Northamptonshire, NN7 4EJ.

Part II - Particulars of decision:

The Northamptonshire County Council

Hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 that permission has been granted for the carrying out of the development referred to in Part I hereof in accordance with the application and plans submitted subject to the following conditions:-

1. Commencement

The development hereby permitted has commenced.

Reason: To conform with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
2. **Scope of Planning Permission**

Except where modified by this schedule of conditions the development hereby permitted shall be carried out in accordance with the following approved documents:

- Application Form dated 19 February 2015
- Planning Statement received 3 March 2015
- Noise Assessment by LF Acoustics dated February 2015
- Drawing GPP/BP/HA/15/04 Rev 2. Site Phasing Plan Revised Phase 4
- Drawing GPP/BP/HA/15/05 Rev 2. Site Phasing Plan Revised Phase 5
- Drawing GPP/BP/HA/15/06 Rev 2. Site Phasing Plan Revised Phase 6

3. Minerals to be extracted from the site shall be restricted to sandstone and the depth of the working shall not exceed 15.0 metres below original ground levels.

   Reason: To specify the mineral to be extracted and the depth of working in the interests of amenity and the environment having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

4. Sufficient building stone for hand working shall be made available during the life of the quarry to supply the reasonable demands for such stone in the area.

   Reason: To ensure that the production of building stone is the principal activity and made available to builders having regard to policy 6 of the Minerals and Waste Local Plan (October 2014).

5. **Plant Location**

The minerals processing plant shall be set down on the sandstone deposits below original ground levels and the crusher shall only be located and operated within the recycling area behind the 6 metre bund as shown on drawing GPP/BP/HA/15/04 Rev 2.

   Reason: To safeguard the amenities of local residents and the occupiers of “The Quarries” in particular having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

6. **Soil Handling and Stockpiling**

   a) Before mineral extraction operations are commenced in each phase of the development, all available topsoil shall be stripped and stored separately for reinstatement.

   b) Before mineral extraction operations are commenced in each phase of the development, all available subsoil shall be stripped and stored separately for ultimate replacement.

   c) All operations referred to in (a) and (b) of this Condition shall be undertaken

**Note:** This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
during suitable dry weather conditions. During periods of unsettled weather conditions the operations shall be undertaken in stages with breaks during wet spells.

d) The stored materials shall be sown with grass seed or sprayed with herbicides to prevent weed accumulation.

e) In any event no soil stripping operations should be undertaken during the months October to March inclusive unless otherwise agreed in writing by the County Planning Authority in consultation with the Ministry of Agriculture.

Reason: To safeguard the restoration of the site by defining the storage and handling of available topsoil and subsoil.

7. The materials stripped in accordance with condition 4 shall be used for the construction of the earth bunds pending their ultimate replacement in the final restoration of the site.

Reason: To safeguard the restoration of the site by defining the storage and handling of available topsoil and subsoil having regard to policy 28 of the Minerals and Waste Local Plan (October 2014).

8. Hours of Working

Except as may be otherwise be approved in writing by the Mineral Planning Authority, site preparation, the working and processing of minerals and the importation of inert waste material and all tipping operations at the site shall be restricted to between the hours of 7.30 am and 6.00 pm on Mondays to Fridays and 7.30 am and 1.00 pm on Saturdays with no such operations being carried out on the site on Sundays or Public Holidays. The transportation of processed minerals from the site shall be restricted to between the hours of 7.00 am and 6.00 pm on Mondays to Fridays and 7.00 am and 1.00 pm on Saturdays, with no such operations on the site on Sundays or Public Holidays. No crushing operations shall take place on Saturdays.

Reason: To protect the amenities of local residents in accordance with policy 22 of the Minerals and Waste Local Plan (October 2014).

9. Access and Highway Safety

a) The sole vehicular access for the development hereby permitted shall be by way of the existing access with the A428 Northampton to Rugby Road. This access shall be maintained to the specification outlined in planning permission DA/81/373C for the duration of the life of this planning permission.

b) Upon completion of the restoration operations or the date referred to in Condition 23 of this permission, whichever is the sooner, the vehicular access and haul route shall be reinstated in accordance with a scheme and timescales to be submitted to and agreed in writing by the Mineral Planning Authority.

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
Reason: In the interests of highway safety having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

10. **Vehicle Cleaning/Mud on the Road**

Modern wheel cleaning facilities shall be installed and maintained, in full working order for use at all times. The wheels of all vehicles leaving the site shall be cleansed of mud and other debris by the use of such facilities and a road sweeping vehicle shall be employed to clean the access and internal road, to prevent mud and dust being carried onto the public highway.

Reason: In the interests of highway safety having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

11. **Noise/Amenity Protection**

All vehicles, permanent plant and machinery controlled by the applicant and operated within the site shall be maintained in accordance with the manufacturer's specification at all times, and shall be fitted with and use effective silencers and White noise or broadband audible warning signals shall be used by all mobile plant including lorries.

Reason: To safeguard the amenities of local residents and the occupiers of "The Quarries" in particular having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

12. The scheme for the monitoring of noise levels at the noise sensitive properties (The Quarries, The Lodge, 51 Rugby Road) adjacent to the site submitted to the Mineral Planning Authority on 6th June 2006, shall be implemented on commencement of operations on site. Except as may otherwise be agreed in writing by the Mineral Planning Authority, all noise monitoring undertaken in accordance with this scheme shall inter alia provide for the following:-

i) The proposed location points for the monitoring to be undertaken.

ii) The monitoring of noise levels at intervals and by equipment which must be agreed in writing by the Mineral Planning Authority.

iii) The results of the noise monitoring to be submitted to the Mineral Planning Authority in accordance with details to be agreed in writing by the Mineral Planning Authority.

The noise levels at the noise sensitive properties shall not exceed 45 dB(A) LAeq 1 hour (free field) at the Quarries and 55 dB(A) LAeq (free field) at the Lodge and 51 Rugby Road, during working hours, other than those during initial stripping and bund formation which shall be no greater than 70 dB(A) LAeq 1 hour (free field). Should the agreed maximum specified level be exceeded the operator shall immediately implement remedial measures to rectify the situation and the Mineral Planning Authority shall be notified in writing of the remedial measures undertaken.

If the levels continue to exceed the maximum specified noise level and subsequent written notice is given by the Mineral Planning Authority then all

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
operations on site shall cease within 2 days of such a written notice. No operations shall re-commence on site until a scheme of remedial action has been submitted to and agreed in writing by the Mineral Planning Authority.

Reason: To safeguard the amenities of local residents and the occupiers of "The Quarries" in particular having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

13. The soil bunds currently constructed along the western, northern and eastern boundaries of each phase of the development shall be maintained in the locations and at the heights as shown on the submitted application phasing plans GPP/BP/HA/15/04, 05, and 06. The bunds shall be modelled and shaped; and grass seeded and maintained as grassed mounds. Other than in the creation and removal of earth bunds, all plant shall operate below the levels of the bunds.

Reason: To safeguard the amenities of local residents and the occupiers of "The Quarries" in particular having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

14. The soil bunds currently constructed along the western, northern and eastern boundaries of each phase of the development shall be maintained in the locations and at the heights as shown on the submitted application phasing plans GPP/BP/HA/15/04, 05, and 06. The bunds shall be modelled and shaped; and grass seeded and maintained as grassed mounds. Other than in the creation and removal of earth bunds, all plant shall operate below the levels of the bunds.

Reason: To safeguard the amenities of local residents and the occupiers of "The Quarries" in particular having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

15. Dust

The scheme and programme of measures for the suppression of dust and the monitoring of such operations submitted on the 6th June 2006 and approved by the Mineral Planning Authority shall be implemented and complied with at all times and included inter alia:

i) The suppression of dust caused by the moving and storage of soil and overburden, stone and other materials within the site;
ii) Dust suppression on the haul roads.

Reason: To protect the amenities of the locality from the effects of any dust arising from the development having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

16. Tree and Hedgerow Protection

The belts of trees between the eastern side of the site and the A428 road and the northern part of the site and Upper Harlestone Lane and the hedges along

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
the western and southern sides of the site shall be retained and maintained during the whole length of the operations.

Reason: In the interests of visual amenity and wildlife conservation having regard to policy 24 of the Minerals and Waste Local Plan (October 2014).

17. **Buildings Plant and Machinery**

With the exception of mobile plant and machinery located on the floor of the quarry and out of sight from the surrounding land and notwithstanding the provisions of Part 17 of Schedule 2 of the Town and Country Planning General Development Order 2015, (or any Order amending, replacing or re-enacting that Order), except for those detailed in the application, no building, plant or machinery shall be erected, extended, installed, rearranged, repaired, or altered at the site without prior planning permission from the Mineral Planning Authority.

Reason: To ensure that the Waste Planning Authority retains control of the location, erection, appearance and removal of fixed and mobile plant, machinery, buildings and foundations in the interest of the amenity of the area having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

18. All fixed and mobile buildings, plant, machinery and foundations shall be removed at such time or times as the Mineral Planning Authority shall determine that they are no longer required either for the purpose for which they were installed or for the rehabilitation of the worked out site.

Reason: To ensure that the Waste Planning Authority retains control of the location, erection, appearance and removal of fixed and mobile plant, machinery, buildings and foundations in the interest of the amenity of the area having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

19. **Surfacing of Access**

The internal access road shall be maintained hardened to ensure a smooth running surface free of pot holes and shall be kept free of mud and other debris at all times until completion of site restoration and aftercare.

Reason: In the interests of highway safety having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

20. **Sheeting of Lorries**

No loaded vehicles shall enter or leave the site un-sheeted except those only carrying stone in excess of 500 mm in diameter.

Reason: In the interests of highway safety and safeguarding the local environment having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

**Note:** This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
21. **Archaeology**

The development shall be undertaken in accordance with the programme of archaeological investigation and recording submitted by the applicant on 6th June 2006.

Reason: To enable sites of archaeological interest to be adequately investigated and recorded having regard to policy 26 of the Minerals and Waste Local Plan (October 2014).

22. **Tipping Operations**

No materials shall be imported and deposited on the site other than those of a dry inert nature comprising topsoil, subsoil, clays and other inert materials that are unsuitable for recycling. Tipping operations shall only take place in voids resulting from mineral extraction. The final tipped levels shall be in accordance with the restoration scheme, as approved under condition 23 if this planning permission.

Reason: To specify the materials to be tipped in the interests of the general amenity of the area having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

23. **Restoration**

Within 3 months of the date of this permission a revised restoration and landscaping scheme showing final levels shall be submitted to the Mineral Planning authority for approval in writing. The scheme as approved shall thereafter be implemented in full and completed by the date referred to in condition 25 of this permission.

24. The quarry complex and vehicular access shall be restored progressively in accordance with the submitted phased working plans and planted for forestry purposes in accordance with a scheme to be submitted for approval in writing by the Mineral Planning Authority twelve months prior to the completion of the quarrying operations or the end date referred to in Condition 25, whichever is the sooner.

Reason: To ensure that the site is reclaimed in an orderly manner to a condition capable of beneficial afteruse and in the interests of the amenity of local residents having regard to policy 22 and 28 of the Minerals and Waste Local Plan (October 2014).

25. **End Date**

The development hereby permitted shall cease not later than 31st December 2016 by which time the site shall be reinstated in accordance with conditions of this permission provided that if within this period operations cease for a period in excess of twelve months or the use is otherwise discontinued for a like period, the conditions of this permission relating to restoration and

**Note:** This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Educational Needs and Disability Act 2001 should also be adhered to wherever appropriate.
rehabilitation shall be carried out forthwith.

Reason: To specify the date when the conditions of this permission shall have been fully implemented and to enable the Waste Planning Authority to reconsider the development position in the light of the circumstances prevailing at the end of the consent period having regard to policy 22 of the Minerals and Waste Local Plan (October 2014).

26. Aftercare

Except as may otherwise be agreed in writing by the Mineral Planning Authority, not later than the completion of the mineral extraction and backfilling operations or by the date referred to in Condition 23 of this permission, whichever date is the sooner, a five year outline strategy of aftercare shall be submitted to the Mineral Planning Authority for approval to bring the land to the required standard for forestry use. The five year outline strategy of aftercare, as may be approved by the Mineral Planning Authority, shall be implemented to the Authority’s satisfaction during the five year period following its approval. The outline strategy and the detailed programme of aftercare shall, unless otherwise agreed in writing by the Mineral Planning Authority, be subject to review at an annual site meeting.

Reason: To comply with the requirements of Schedule 5 of the Town and Country Planning Act 1990 and to ensure the reclaimed land is correctly husbanded and to bring the land to the standard required for forestry use having regard to policy 28 of the Minerals and Waste Local Plan (October 2014).

INFORMATIVE

1. The high pressure gas main and the water main which cross the site shall continue to be safeguarded as required under Planning Permission DA/94/389C.

Date 16th June 2015 Signed __________________________

For Assistant Director of Environment and Planning

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
1. If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or the grant permission or approval subject to conditions, he may appeal to the Secretary of State for the Environment in accordance with Sections 78 and 79 of the Town and Country Planning Act 1990 within six months of receipt of this notice. (Appeals must be made on a form which is obtainable from the Planning Inspectorate, 3/08a Kite Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN). The Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not required to entertain an appeal if it appears to him that permission for the proposed development could not have been granted by the local planning authority, or could not have been so granted otherwise than subject to the conditions imposed by them having regard to the statutory requirements (a), to the provisions of the development order, and to any direction given under the order. He does not in practice refuse to entertain appeals solely because the decision of the local planning authority was based on a direction given by him.

2. If permission to develop land is refused or granted subject to conditions, whether by the local planning authority or by the Secretary of State for the Environment and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted he may serve on the Council of the district in which the land is situated a purchase notice requiring that council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

3. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.

(a) The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely sections 70 and 72(1) of the Act.

Note: This permission only relates to planning permission and does not include consent under the Building Regulations for which separate permission may be required. The requirements of the Chronically Sick and Disabled Persons Act 1970, the Disability Discrimination Act 1995 and the Special Education Needs and Disability Act 2001 should also be adhered to wherever appropriate.
