

NORTHAMPTONSHIRE MINERALS AND WASTE LOCAL PLAN UPDATE: COUNCIL RESPONSE TO INSPECTOR'S MATTERS AND ISSUES

MATTER 5 – Proposed modifications

Issue 1

Any other modifications to the Plan that the Council considers are necessary for soundness.

Exam Doc Ref 620 contains what the council considers to be non-main modifications to include reference to HS2, use of the term local wildlife sites rather than county wildlife sites, transport assessments for allocations M5 and M6 and correct a typographical error. However up to date references to the strategy and inventory for radioactive waste are also proposed and some or all of these updated references could be considered as being a main modification to make the plan sound.
