

### FOREIGN REGISTERED VEHICLES

- Foreign registered vehicles are NOT exempt from displaying the appropriate permits when parking in a permit bay/zone.
- If a foreign registered vehicle belongs to someone who resides/is staying at a property within a designated permit zone then they should follow the process detailed on either the Resident's Parking Permit or Short-Term Permit page.
- Residents should not assume that they can use their Visitors Parking Permit in such circumstances as this is deemed misuse of the scheme and if observed, a Penalty Charge Notice would be issued. Written permission is required from Northamptonshire County Council to allow use of the Visitors Parking Permit.
- Permits must be displayed in the vehicle ensuring all the written details on the permit are **clearly visible** through the windscreen at all times. **Failure to comply may result in a Penalty Charge Notice being issued.**
- Permit holders are reminded to check the signage prior to leaving their vehicle, in particular limited waiting bays.
